

Silver 40 ro

Film Type

SUN PROTECTION FILM

DESCRIPTION

Silver ro films are sputtered outdoor window films with a top co-extrusion layer for extreme UV conditions, increased durability and life on vertical glazing. Due to their special coextrusion layer, these films offer excellent weather resistance and UV protection especially in extreme UV conditions.

INTENDED USE

Silver ro films are suitable for vertical glazing on all types of buildings. With their high solar energy rejections, balanced price-performance ratio and durability, Silver ro films offer a fast and lasting return on investment.

Tested on single glazing (3 mm). All technical values are manufacturer information. Production-related fluctuations and changes are reserved.
