

SHADE FILM**Article No. SF1800**

DESCRIPTION

This SiWh00 film offers excellent heat and glare protection. It is the most performing film of all RHODETEC shade films. This film is suitable for full darkening and thus also offers one hundred percent privacy protection. This film achieves the highest possible savings in energy costs for cooling.

$\geq 77\%$
Visible light reflection

$\geq 79\%$
Total solar reflection

white/silver
Colour inside/outside

$\geq 99\%$
UV-rejection

Indoor blinds
Application

INTENDED USE

The SiWh00 film is particularly suitable when a complete blackout film is desired. This film is used in office buildings with VDU workstations, CAD workstations or in lecture rooms. The film is also very suitable for rooms on the east or west side where glare is caused by a low sun.
